## A Youth Fellowship Programme

To support young people strengthen their passion for creating a better world, ignite change within their own selves and lead social change on their own terms.

**THE YOUTH COLLECTIVE** is a group of progressive and like minded individuals/ organisations who have a passion and belief in the power of young people to bring about social change. As a group we wish to make sure that young people question and explore complex issues in the human and natural worlds in different ways, and act to bring about a positive change. For this, we are working at:

- creating a common platform for youth development and youth action
- creating a positive image about youth citizenship action
- developing a bridge between policy makers and influencers to strengthen youth programmes
- bringing more organisations towards youth development
